Gjoa Haven, NU X0B 1J0

**Re: Application for Renewal of Municipal Water Licence NWB3COR0207**

On behalf of the Hamlet of Coral Harbour please find attached an application for the renewal of Municipal Water Licence NWB3COR0207. As the Hamlet is proposing a change to the current Water Licence, notably incorporating the tundra wetland as part of the "Sewage Disposal Facility", additional information supporting this request has been included with the application. Supporting the application are the following attachments:

- NWB Municipal Questionnaire;
- Application Summary in English and Inuktitut;
- Tundra Wetland Sewage Treatment Facility Summary Report;
- Schematic Design Report, Natural Tundra Wetland Sewage Treatment Area Design;
- Water application and use fees

One hard copy of these documents is provided in addition to digital copies on the enclosed compact disk.

Nunami Jacques Whitford Limited has been retained by the Department of Community and Government Services, Government of Nunavut to prepare a design for physical improvements to the tundra wetland treatment facility and assist the Hamlet with the licence renewal process. Tendering of a contract for construction of the proposed wetland improvements is pending with construction anticipated for summer 2008.

I trust we have provided the Board with sufficient information to process the licence application. Should you have any questions or please do not hesitate to contact me. Please address any correspondence related to this application to the undersigned.

Yours Truly

**NUNAMI JACQUES WHITFORD LIMITED**

Nick Lawson
