Subject: Hamlet of Coral Harbour – Amendment Renewal – Type “B”

Dear Ms. Lusty:

The Nunavut Water Board (“NWB”) acknowledges receipt, on January 21, 2015, of an amendment renewal application for a Type “B” water licence for water use and waste disposal associated with activities in the Kivalliq region of Nunavut. The application consists of the following documents:

- Water Licence Application
- Population and Water Demand Estimate
- Annual Reports 2007- 2009
- Compliance Plan
- Authorization letter from Hamlet for Megan Lusty to act of its behalf
- Receipt of Application Fee
- Executive Summary in English and Inuktitut
- Issued for Tender Drawings for the Coral Harbour New Water Pump House (CO COV, C1 C1-SP, C2 C2-PP, C3 C3, C4 C4, 8011-116_E1_R00, 8011-116_E2_R00, 8011-116-PLN-MEC-Tender 2014-12-15, Coral Harbour Tender S1 to S5)

The NWB understands that the Application supersedes an amendment renewal application for a Type “B” water licence, previously submitted by the Hamlet of Coral Harbour on February 20, 2014, which upon review by the NWB was found to be deficient. Despite the requirement for a resubmission of the application, the NWB recognizes that many of documents associated with the previous application remain relevant, and as noted in your cover letter (and subsequent

communication¹), the following previously submitted documents are to be considered with the current application:

- Operations and Maintenance Manual for Water, Sewage and Solid Waste Facilities at Coral Harbour, NU (Nunami Stantec 2010), containing:
 - o Water Distribution System Operations and Maintenance (Section 3)
 - o Sewage Disposal Facility Operations and Maintenance (Section 4)
 - o Sewage Sludge Management Plan (Section 4.7)
 - o Solid Waste Disposal Facilities Operations and Maintenance (Section 5)
 - o Spill Contingency Plan (Section 6.2), Spill Contingency Forms (Appendix G)
 - o Monitoring Program Quality Assurance/Quality Control Plan

The application and associated documents can be obtained from our ftp site under PRUC with Username: **public**, Password: **registry**.

The NWB undertook a preliminary review of your application and concluded that it meets the requirements of section 48(1) of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act* (“Act”). However, the NWB retains the right to request additional information and studies pursuant to sections 48(2) of the Act or to issue guidelines for the provision of information pursuant to section 48(3) of the Act. A NWB Technical Advisor may be in touch with you to clarify any technical details related to your application.

In accordance with S.11.5.10 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada* (“NLCA”), prior to the application being fully processed by the NWB the project proposal shall be reviewed by the Nunavut Planning Commission (“NPC”), to determine whether the project proposal is in conformity with an approved land use plan. By copy of this letter, the NWB requests the NPC provide its determination and recommendations to the NWB pursuant to Sections 13.4.2 through 13.4.5 of the NLCA, or written confirmation that the project proposal falls outside the boundaries of an approved land use plan. Also, by copy of this letter to the Nunavut Impact Review Board (“NIRB”), the NWB requests that if the project proposal requires screening, the NIRB provide the NWB with a determination pursuant to Section 13.5.1 of the NLCA. If the project is exempt from screening pursuant to Schedule 12-1 of the NLCA, the NWB requests written confirmation from the NIRB that the project proposal is in fact exempt from screening.

To ensure this application is dealt with in a timely fashion, the NWB forwards notice of all documentation to regulators and council of the municipality(ies) most affected by the project, inviting interested parties to make representation directly to the NWB **within 30 days from the date of this letter**. The NWB may provide additional procedural instructions once the application has been reviewed by interested parties.

¹ Email from Megan Lusty (GN-CGS) to Brady MacCarl (NWB), January 30, 2015, 3BM-COR0813 Application Clarification

Subject to Sections 12.10.2 and 13.5.5 of the NLCA, where a review is required pursuant to Article 12, the NWB shall not approve any water application that forms part of that review until Article 12 has been complied with.

Sincerely,
