Subject: Coral Harbour Water Licence Renewal Application

Hello John,

This is Ali, I am working on the Coral Harbour Renewal Application. We received comments for the completeness check of this application from CIRNA.

Regarding your comment in **Section C - Completeness of Application**, I see you were unable to locate the new application form that was submitted on September 29, 2021, it includes the quantity of water requested. This document has been posted to NWB's Public registry. I have attached the document with this email as I think it may satisfy CIRNA's recommendation.

The remaining IRs will be sent to the Applicant for responses.

Please let me know if this satisfies the recommendation in Section C.

Regards,

Ali
