Report

Dear Mr. Pameolik:

The Nunavut Water Board (NWB or Board) has completed its review of the 2014 Annual Report (Report) and accompanying Monitoring Program sampling results for Licence 3BM-COR0813, submitted by Government of Nunavut, Community and Government Services (GN-CGS), for the Hamlet of Coral Harbour. The Licence 3BM-COR0813 was renewed on April 24, 2015, as Licence 3BM-COR1521.

The review determined that the Report is generally complete and consistent with the reporting requirements under Part B, Item 1 in Licence 3BM-COR0813. The review also noted that the Hamlet plans to construct a new Water Treatment Plant during summer 2015. Related to this work the existing Water Truck Fill Station will be demolished.

Copies of the above-mentioned Report as well as documents related to the licence are available on the NWB's FTP site, which can be accessed using the following link:
