Re: 3AM-GRA1015 Information Request on Total Volume of Water Withdrawn from Char River/Lower Landing Lake to Nipissar Lake

Dear Ms. Beaulieu,

This letter is provided to the NWB in response to the request for information regarding the total volume of water withdrawn from the Char River/Lower Landing Lake to replenish Nipissar Lake from the issuance of Amendment 1 to date.

No water was pumped from the issuance of Amendment 1 (December 23, 2014) until June 18, 2015.

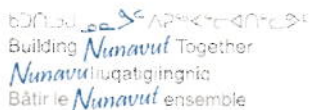

There was a total water volume of 243,637 m³ transferred from Char River to Nipissar Lake between June 18 and September 11, 2015. Please refer to the following spreadsheet for readings taken from the Char River flow meter.

No water has been pumped from Char River since September 11, 2015. No water will be pumped until after thaw next spring (anticipated early to mid-June 2016).

No water has been pumped directly from Lower Landing Lake as the Water Licence does not authorize withdrawal from this location.

The Applicant requests that the submission of this information does not impact the timeline for information exchange set-out by the NWB on November 2, 2015.

For further information please contact Megan Lusty at (867) 645-8176 or mlusty@gov.nu.ca.

Sincerely,

Mary ~~Kelly~~
