The Nunavut Water Board acknowledges receipt of the Type "A" Renewal application for the Rankin Inlet Water and Sewage Utilidor project. Prior to distribution for a completeness check the NWB staff will conduct an internal review of the submissions. Any deficiencies will be requested prior to the start of the process towards a public hearing

Good evening Megan,

Just having a very quick look at the application for renewal, I noticed that an updated Sewage Treatment Facility O&M Manual will be submitted by April 17 which is great.

I have also noticed that Part C Item 1 of the Amendment finalized recently required a Water Pumping Adaptive Management Plan to be submitted for Board approval by March 31th within the 2014 Annual report. If GN is able to submit this Plan a little bit earlier it would be great to include it within the renewal Application.

What you think?

Hi Karén,

The majority of the work being done for the Water Pumping Adaptive Management Plan is being done by our consultant for the resupply pipeline project, Stantec. I will not have the final version back from them much before March 31st so I will not be able to submit this plan earlier than the deadline.

Megan

Hi Megan,

Thanks for information. That means when/if the application is sent for Completeness check Parties will be advised that this Plan will be included for the review once submitted within Annual Report by March 31th.

Regards,
