Hi Robin,

As per our discussion, we have not yet received the final version of the *Nipissar Lake and Lower Landing Lake Water Balance Assessment* that was due from Golder Associates today. Golder has said that CGS will have the report today, but we will not have it in time to meet the 3PM MST submission deadline to the NWB given in our extension.

A copy of the Executive Summary of report that we received earlier today is attached. The final version of the report will be submitted to the NWB as soon as we receive it today.

Regards,

Megan

**Subject:** Executive Summary

Hi Nicole,

Attached is the Exec Summary – in form of a Tech Memo.

Hopefully this will work.

The entire report package will come in a little while.

Thanks

Julia
