Dear Richard Dwyer, Cassel Kapolak, Luis Manzo, Carson Gillis, and Community Support Division:

RE: NPC File No. 150533 [3AM-GRA1631 Municipal Water Licence Amendment]

The following works and activities have been proposed in the above-noted project proposal:

- 1. Amendment to Type A water licence to support construction of new infrastructure to replace existing aging infrastructure.
- 2. Summary of proposed modifications:
 - i. New raw water intake pumphouse at Nipissar Lake
 - ii. New water treatment plant at Williamson Lake
 - iii. All other existing licence conditions remain unchanged
- 3. Associated NPC File Nos.: 148311 and 149381; Associated NIRB File No.: 13UN037
- 4. Location: Kivalliq Region; [Rankin Inlet]

A complete description of the project proposal reviewed by the Nunavut Planning Commission (NPC) can be accessed online using the link below.

The NPC has completed its review of the above-noted project proposal. The works and activities associated with this proposal were previously reviewed by the NPC, including construction of a new water intake and transfer system, and a conformity determination was issued on 29 July 2020 which still applies. In addition, associated activities were previously screened by the Nunavut Impact Review Board (NIRB File No. 13UN037). The project proposal conforms to the Keewatin Regional Land Use Plan (KRLUP) and the proponent has undertaken to comply with the applicable conformity requirements of Appendices C, G, and H of the KRLUP.

The above-noted project proposal is exempt from screening by the NIRB because it belongs to a class of works or activities set out in Schedule 12-1 of the *Nunavut Agreement*, and the NPC does not have concerns regarding the cumulative impacts of the project proposal.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address: https://lupit.nunavut.ca/portal/registry/registry.aspx?appid=150533.

The regulatory authorities to which this letter is addressed are responsible under the *Nunavut Planning and Project Assessment Act (NuPPAA)* to implement any of the applicable requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above-noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits, and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licenses, permits, and other authorizations under subsection 69(6) of the *NuPPAA*.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose.

If you have any questions, please do not hesitate to contact me at (867) 447-4563.

Sincerely,

Solomon Amuno, PhD Senior Planner

Nunavut Planning Commission
