Dear Mr. Wall,

The Nunavut Water Board (“NWB” or “Board”) received on March 31, 2011, the Addendum 1 to the “Environmental Emergency Contingency Plan Hamlet of Rankin Inlet”.

The Addendum was found to be generally meeting the reporting requirements of licence 3AM-GRA1015. However, the NWB will appreciate the inclusion of a map detailing Government of Nunavut, Department of Community and Government Services fuel storage locations and spill kit locations in the future revision of the Plan that was required to be included with the addendum as well.

Should you have any questions, please feel free to contact the undersigned at (867) 360-6338 Ext. 30, at your earliest convenience.

Yours truly,
