RE: Your Fax Letter of Sept. 6/01 Regarding Sewage Disposal System

In reference to your fax letter to David Hauuli, Director of Municipal Public Works regarding the Sewage Disposal System, specific **second** item, a formal application to NWB3IGL9803 required prior to construction of a such a reserve lagoon.

Rightfully so we will adhere to the requirement as outlined by you. Let me reassure you that, where we may have neglected a portion of the requirements is purely unintentional, and one that we don't intend to repeat.

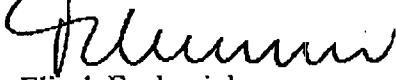

Let me reassure you that this additional lagoon is an add-on or a reserve – and we have no intention of using it at this time and it is most likely that we won't be using it until late winter or when the other existing lagoons are filled to capacity, which is most likely in the spring.

Our main concern has been the expected population growth of our community with expected additional 17 positions with Nunavut Government this coming fall and winter. Given the expected growth of our community - upper most in our mind is making sure that our sewage lagoon is able to meet the additional capacity required, which we don't take lightly. Also the concern that our Director of Municipal Public Works is the freeze up of the ground and that if we don't start constructing the lagoon at this time, chances are that by the time we get around to it the ground will be frozen.

In closing let me reassure you that this minor infraction of the procedures will be rectified as per your request to David Hauuli – Director of Municipal Public Works.

Sincerely,

Eliyah Evaluarjuk
Mayor
