Re: Hamlet of Igloolik: 3BM-IGL 1520 : Amendment application

Dear Ms. Beaulieu,

We recently received a new Water Licence for the Hamlet of Igloolik which will be expired on March 30, 2020. This licence covers Community water supply system, Wastewater treatment by lagoon and Waste management sites. We are planning to optimize the Wastewater treatment process by building a new lagoon and rehabilitating the existing three lagoons into two. Design Brief is complete and construction drawings are ready for tendering. We are now submitting amendment application with the following supporting documents.

1. Amendment Application signed by the Senior Administrative Officer (SAO) of the Hamlet of Igloolik
2. Authorization letter by SAO
3. A \$30.00 Cheque payable to "Receiver General for Canada".
4. Technical Summary in English and Inuktitut
5. Design Brief
6. Geotechnical Report
7. Geothermal Report
8. Construction Drawings
9. Construction Schedule
10. Construction Specifications

We are expecting to Tender this project at the beginning of May, 2015.

Please contact me if you have any issue or concern with this Amendment application. I will also appreciate if you keep me in the loop for this water licence approval process.
