

Part 1 General

1.1 PHASING AND SCHEDULE

- .1 As per tender documents, submit a price for two (2) phases of the project to be itemized under the TENDER FORM as attached and submitted on phase one of the tender closing date.
- .2 Work can proceed on phases prior to the originally specified year if; the Hamlet's water license has been issued, and the contractor receives written permission from the Government of Nunavut.

1.2 QUARRY PERMIT

- .1 The Government of Nunavut shall provide a Quarry Permit of the work covered by Phase 1
- .2 The contractor shall be liable to meet the conditions and terms of the licence and shall remediate the site according to the stipulations of the permit.
- .3 If the works are not completed under the original Quarry permit as provided by the Government of Nunavut, the Contractor shall be responsible to obtain a new permit to complete the works in 2016. The cost of obtaining the new permit will be fully borne by the Contractor.

1.3 EQUIPMENT

- .1 As part of the tender, the contractor shall submit a list of equipment intended for use on the project, and shall submit a mechanics inspection report on the condition of the equipment.
- .2 The Contractor shall make available his equipment for inspection by the Government of Nunavut or there representative prior to shipping.

1.4 SCHEDULE OF WORK

- .1 The Contractor within seven (7) days of the notice of award of this contract shall submit to the Engineer a proposed final schedule in the form of a bar chart for his approval. The schedule shall include proposed dates for commencement and completion of each of the tasks required under this contract. The tasks will include, but will not be limited to, all manufacturing, preparation, shipping, and the installation of the items in this contract. The schedule will also include the anticipated dates for all testing, commissioning, and inspections as required elsewhere in this contract. The contractor will also provide all necessary and appropriate information and any other information deemed pertinent by the Engineer regarding sequence and co-ordination which will be required to ensure successful completion of the project.
- .2 If the contractor fails to adhere to the approved progress schedule, he must promptly adopt such other or additional means and methods of construction that will make up for the time lost and will assure completion in accordance with such schedule.
- .3 If at any time the Engineer determines the work, tools, plant or equipment to be insufficient, inefficient or inappropriate, the contractor shall take whatever action required

to right the situation. The failure of the Engineer to instruct the contractor to make such changes does not relieve the contractor of his obligation to ensure the quality of work and rate of progress to complete the work as required

1.5 MATERIALS LIST

- .1 Within three (3) days of the notice of award of this contract, the contractor shall provide a complete list of suppliers for the materials required for this contract. The list will include the supplier's name, a contact person, phone number, and address where applicable.
- .2 The contractor will provide verification for the Engineer that all equipment specified by make and model number has been supplied as specified. No equipment shall be installed prior to written approval given by the Engineer. No material will be paid for without having received the Engineer's approval.

1.6 ORAL ARRANGEMENTS

- .1 In all cases of misunderstandings or disputes, oral arrangements will not be considered. The contractor must produce written authority in support of his contentions, and shall not advance any claim against the Government of Nunavut or its representatives in the absence of such written authority.

Part 2 Products
