Sub: 3AM-IGL----, Type A Water Licence renewal application

Dear Richard,

Please find attached my responses to the questions of CIRNAC and revised Plan for Compliance as requested. I am also mailing a USB manual containing the 0&M of the Water Plant. Treatment As I indicated before, due to COVID 19 Pandemic and GN travel restrictions, I am still working from Ottawa Home. Currently I do not have an account to my GN in Pond inlet Therefore, I suggest to publish our application with the comments attached for Public review. I am sure that I could answer to any additional comments and also able to submit the necessary documents required or requested prior to the Technical and Public Hearing whatever suggested expedite the renewal process of this application.

Please contact me if you have any question or concern.

Bhabesh Roy, M.A.Sc., P.Eng.
