June 26, 2020

**Sub: Renewal and Amendment of the Type B Water Licence No .3BM-IGL 1520 to Type A Water Licence 3AM-IGL-- of the Municipality of Igloolik.**

Dear Mr. Dwyer

I am writing you to confirm that I received ECCC and CIRNAC Technical review comments on this file on June 17, 2020. I have thoroughly gone through the comments and discussed with our Technical Team. I have had also several virtual meetings with the Technical Advisor of NWB on this file.

We feel that we need to visit the community for gathering more information in order to rectify or upgrade the existing O&M plans and also to prepare any new Plan as required. During the COVID 19 Pandemic situation and under GN travel restrictions, we require minimum a year to satisfy the obligations and to fulfill the requirements as recommended especially by CIRNAC dated June 12,2020.

We also recommend excluding the Access Road from the new Water Licence. It is noted that this access road was never a part of the previous expired Water Licenses.

In these circumstances, we are requesting to include these requirements as the conditions of the proposed new Type A Water Licence.

We will appreciate if you would move this file to the next stage of the Nunavut Water Board Licence Review process.

Please contact me if you have any question or comment. I will be happy if you kindly keep me in the loop of the Water Licence approving process.
