Subject: Re: Igloolik Decant

Mr. Fleming,

Please proceed with your emergency Decant of the sewage lagoon to protect the integrity of the berm walls. As noted in your license please record and submit the volumes discharged to the environment. Please collect and submit for analysis the required samples and submit to the Inspector and the NWB your results from the lab.

Many thanks

Andrew Keim

Richard Dwyer:

Our sewage lagoon cells are full and quickly approaching the maximum level. As a result, we would like permission to decant a cell to protect the integrity of the lagoon berm.

Thanks in advance and please contact me if you need further information or have any questions.

Brian Fleming

Senior Administrative Officer

Municipality of Igloolik
