Hi Robin,

Thank you for your confirmation of receipt of the Solid Waste Management Plan, the West 40 Landfill Decommissioning Plan and the West 40 Landfill Operation and Maintenance Manual.

As per the attached letter, which the City submitted to the NWB in September of 2013, the City wishes to include the new Solid Waste Management Site and the Supplementary Water Supply (augmentation of Lake Geraldine from Apex River) in the scope of the current application. Can you please confirm that this letter has been received and confirm what the steps need to be taken to include these items in this current application?

Sincerely,

Meagan Leach
Director of Engineering and Sustainability
City of Iqaluit
