Erica,

I am the Technical Advisor that will be assigned to formally review of your application to amend 3AM-IQA1626. At this time I am conducting a completeness check of the application and would like clarification from you on the following points:

1. Please clarify the pumping rate/total volume you anticipate.
  - Box 13 of the application indicates 7,000 m<sup>3</sup>/d.
  - Page 3 of the supporting submission indicates 341 m<sup>3</sup>/h (8184 m<sup>3</sup>/d)
2. Water Licence No. 8BC-BTN1819 expires on May 22, 2019. Please clarify how water will be managed during the 2019 when the cofferdams are not available.
3. Please clarify the term you are requesting to cover the Temporary Augmentation Program. At some points in the Application, it appears the intent is for this Amendment to cover 2018 and 2019. In other points in the Application, you state the intent to make a new application for 2019.
  - Box 24 of the Application indicates the intent to operate in 2018 and 2019
  - Page 5 of the supporting submission indicates the intent to submit a new amendment in 2019.

Regards,

Dave
