Re: Application Acknowledgement and Update to Additional Information Required for the City of Iqaluit’s “Type A Water Licence Renewal” Project Proposal

Dear Phyllis Beaulieu:

On October 21, 2013 the Nunavut Impact Review Board (NIRB or Board) received the City of Iqaluit's "Type A Water Licence Renewal" project proposal from the Nunavut Water Board (NWB). The NIRB has assigned this project proposal file number 13UN034. All documents received and pertaining to this project proposal include:

- *NIRB Part 1 Summary Application Form in English and Inuktitut*
- *Non-technical Project Proposal summary in English and Inuktitut*
- *Nunavut Water Board Application in English*
- *Maps*
- *Spill Contingency Plan*
- *2007, 2008 and 2012 Water Licence Annual Reports*
- *June, July, September, October and December 2012 Monthly Reports*
- *Water Balance Report for Lake Geraldine*

The NIRB conducted a preliminary completeness check of the application materials and found that the project proposal did ***not*** contain sufficient information to permit proper screening.

Please be aware that the NIRB had previously received application materials from the City of Iqaluit and on July 11, 2013 issued correspondence requesting that the following additional information be provided to the NIRB:

- *NIRB Part 2 Form: Project Specific Information Requirements*
- *Hazardous Waste Management Plan*
- *Abandonment and Restoration Plan*

On July 25, 2013 the NIRB received a response from the City of Iqaluit indicating that the additional information would be submitted to the NIRB on November 30, 2013.

Once the information is received, the NIRB will proceed with its assessment of the project proposal. The NIRB looks forward to having the screening completed for the NWB in accordance to the timelines and procedures set out in Section 12.4.5 of the Nunavut Land Claims Agreement.

If you have any questions or concerns, feel free to contact me at 867-983-4611 or tarko@nirb.ca.
