Hi Derek,

I am just waiting on EXP to get back to me on the geotechnical comments.

I will send them an email reminder

Hi Alan

Do you have a time frame for when we can expect to receive the requested information? Unfortunately, the application can't move forward until we receive it.

Thanks,

Hi Alan

Thank you for the response. It however indicates that a Memo is attached with respect to ECCC comment #1 (leachate treatment options evaluation memo that was submitted by Dillon Consulting to the City of Iqaluit on August 30, 2019). This memo from August 30, 2019 was not attached. Could you please provide it.

We also did not receive any response to comments with the Geotechnical report previously submitted, just the report.

Can you provide a response to initial information requests in a single cohesive document, and include the additional memos/reports referenced all together in the same submission.

Thanks,

Derek

Hi Keith,

I will send the comments to EXP to provide their feedback related to the road

I am uncertain if there are any comments in regard to the design docs. Lets respond to these comments and I will ask the NWB upon our submission.

Hi Alan, we will review the comments. At first glance there are several that reference the access road. These are an EXP design and not part of our current scope. Would you like us to address these comments (I don't know if we can, it would need a more indepth review) or will you be going back to EXP?

Also, will these be all the questions wrt the design documents or will there be more still coming.

thanks

Keith

Good Afternoon Keith,

Please find attached comments from the NWB for your review and to have addressed before May 15th

Can you please provide me with your response to the comments as soon as possible and I will have them submitted to the NWB for them to complete their review

Also, can you please let me know how you are progressing on the 100% documents, and if you feel we will be ready for tender shortly?
