Hi All,

This teleconference is to discuss matters surrounding the Inspector's Direction issued by Aboriginal Affairs and Northern Development Canada (AANDC) on March 5, 2013 as well as the Fisheries Act Direction issued separately by Environment Canada (EC) to the City of Iqaluit (City) following inspections carried simultaneously by both AANDC and EC.

The NWB would like for both AANDC and EC to share their overall assessment of the progress being made by the City, current, with respect to addressing the concerns and/or issues contained in the Directions.

In addition, the NWB anticipates that AANDC and EC would be able to provide, to the extent possible, confirmation on the next steps that are likely to follow their Directions in the context of the progress, if any, that have been made by the city to date.

The call-in information is as follows:

- Toll Free Number: 1-888-289-4573; and
- Access Code: 8204234.

In the interim, if you have any questions, please do contact me at your earliest convenience.

Regards,

Sean
