Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board

RE: Draft Agenda Technical Meeting and Pre-hearing Conference

Dear Ms. Beaulieu:

The City of Iqaluit (City) is requesting the removal of the Public Meeting and the City presentation for the Technical Meeting. The City has reviewed the policies and procedures for Water Licence hearings and did not find the requirement for a Public Meeting or to provide a presentation during the Technical Meeting.

The City feels it is unnecessary to have a Public Meeting during this phase of the Water Licence Hearings as a Public Hearing is required at a later date to provide the residents of Iqaluit a forum to provide input on the proposed licence. Also, the City does not feel that a presentation during the Technical Meeting will have any benefit. The stakeholders present at the meeting should have reviewed the Application for Renewal, the technical comments provided by the interveners and the response from the City to the technical comments and have questions/comments prepared based on the information provided.

If you have any questions please contact Matthew Hamp, Director of Public Works and Engineering at 867-979-5653.

Sincerely,

Muhamud Hassan
Chief Administrative Officer
City of Iqaluit
