To: Licensing Department &lt;licensing@nwb-oen.ca&gt;

Thank you for information on the upcoming Technical Meeting, Community Session, and Pre-Hearing Conference.

Fisheries and Oceans Canada (DFO) notes Iqaluit's request to exclude the supplemental recharge project from the licence renewal. Further that, should the City plan to implement it, it would be actioned, in future, as a water licence amendment. There is also mention that the supplemental recharge project will require NIRB review.

The City also contends that Lake Geraldine is not a fish bearing water, making impact studies unnecessary. Further that an ecological flow requirement for its outflowing stream is not presently pertinent.

DFO will consider the above for comment to the Nunavut Water Board by January 7, 2016. We look forward to your additional agenda considerations. Please consider me as the DFO representative at this time.

Please see attached correspondence and draft agendas for the upcoming Technical Meeting / Pre-Hearing Conference for the City of Iqaluit's Type A Application.

Please take note of deadlines for submissions back to the NWB.

Regards,
