Hi folks,

I have gone through CIRNAC's May 15 submission and will send through a written response once I've been able to confirm things with my client over the next day or two. The submission will outline the City's views on each of the IRs identified as missing by CIRNAC and propose a path forward between now and the technical meeting. We propose to work with CIRNAC between now and mid-August and make some headway in resolving outstanding issues.

Is it possible to hold the two-day TM/PHC earlier the same week as proposed, i.e., Aug 11-12?

Regards,

Richard
