NON CLASSIFIÉ / UNCLASSIFIED

Hi Nidhi,

CIRNAC committed to sending the expected content for the City of Iqaluit updated Erosion and Sediment Control Plan to the NWB.

In fulfillment of this commitment, CIRNAC provides the following expected content for the City of Iqaluit updated Erosion and Sediment Control Plan:

- identify erosion and sediment sources
- identify inspection and maintenance requirements
- detail location-specific mitigation measures
- detail stockpile management procedures,
- detail setbacks from waterbodies,
- detail drainage controls
- detail corrective actions and stabilization measures

Regards,

Michelle
