Background

The Nunavut Water Board (NWB)

- is an Institution of Public Government (IPG) established under Article 13 of the *Nunavut Agreement*

- has responsibilities and powers over the regulation, use, and management of freshwater in the Nunavut Settlement Area

Background

The objective of the NWB is to provide for the conservation and utilization of waters in Nunavut, except in a national park, in a manner that will provide the optimum benefit from those waters for Nunavut's residents in particular and Canadians in general.

Scope of the Renewal and Amendment Application

Current scope that is proposed to be carried over to the renewed licence:

- Use, management and protection of the Lake Geraldine Drainage Basin;
- Management and protection of Waters surrounding the West 40 Landfill site;
- Operation, maintenance, upgrades, monitoring, and eventual closure and reclamation of the following waste management facilities:
  - West 40 Landfill site and associated solid waste disposal facilities,
  - Sludge Management Facility,
  - Wastewater Treatment Plant (WWTP),
  - Sewage Lagoon Facility,
  - Waste Transfer Station, the North 40 Landfill, and associated infrastructure;
- Operation and removal of temporary facilities to provide pumping water from Niaqunngut (Apex) River until permanent facilities have been constructed;
- Withdrawal from Imiqtariviviniq (Dead Dog Lake) for dust suppression.

Scope of the Renewal and Amendment Application

Proposed scope:

- The proposed term of Licence for Renewal and Amendment Application is 20 years, expiring in 2046;
- Construction and operation of permanent facilities associated with the Long Term Water Supply Project, including a new reservoir, water intakes and pumphouses at the Niaqunngut (Apex) River and Lake Qikiqtalik, pipelines, and related infrastructure;
- Permanent dewatering of five lakes that fall in the footprint of the new reservoir.

Application Procedural History

Date	Activity
December 31, 2025	NWB received the Renewal and Amendment Application and supporting documentation from the City of Iqaluit (City).
January 08, 2026	After initial review, the NWB commenced the Completeness Check where parties were invited to review the Application for completeness and provide Information Requests (IRs) by February 06, 2026.
February 06, 2026	Submissions and Information Requests (IRs) were received from Crown Indigenous Relations and Northern Affairs (CIRNA), and Fisheries and Oceans Canada (DFO).
April 30, 2026	The City provided responses to Interveners' Information Requests following an extension request on March 30, 2026.
May 05, 2026	CIRNA requested for an extension to respond to City's response on first round of submissions. NWB granted extension till May 15, 2026.
May 13-15, 2026	The NWB received second round of submissions from DFO and CIRNA on May 13 and May 15, 2026 respectively.

Date	Activity
May 28, 2026	The NWB gave Notice of Application and invited parties to conduct a full technical review and provide their comments/recommendations by June 30, 2026. This correspondence also included tentative timelines for the TM/PHC.
May 29, 2026	The NWB advised that the outstanding Information Requests are of technical nature and can be discussed at the technical review stage.
June 09, 2026	The City provided response to the second round of submissions from CIRNA.
June 30, 2026	Submissions were received from CIRNA, DFO and GN.
July 22, 2026	The City responded to Interveners' comments.
July 24, 2026	The NWB distributed the draft agenda for the TM/PHC, including the Community Session along with the updated timelines for the next steps in the process.
July 31, 2026	The NWB received confirmation of participation in the meetings and presentation documents from CIRNA, DFO, and the City.
August 06, 2026	NWB provided the Final Agendas for the TM/PHC and Community Session.
August 11-12, 2026	NWB hosted the Technical Meeting and Pre-hearing Conference in Iqaluit, followed by a Community Session held on the evening of August 11, 2024.

Date	Activity
August 24, 2026	The NWB issued the Pre-Hearing Conference Decision for the file; including a list of commitments, identifying issues to be addressed at the Public Hearing, and tentative timelines as the Application proceeded to Public Hearing.
August 24, 2026	The NWB published Notice of Public Hearing to be held in Iqaluit in the week of November 02, 2026.
August 26, 2026	The NWB sent an invitation to Environment and Climate Change Canada (ECCC) to participate in the Public Hearing as per GN's request.
August 31, 2026	The NWB received a response from ECCC stating that due to capacity constraints and departmental prioritization decisions, ECCC did not participate in the review of the application and has not undertaken a technical assessment of the application materials, therefore ECCC is not in a position to provide comments on the current application or to participate in the public hearing.
September 11, 2026	The City submitted the draft water licence framework along with the response to the commitments made during the TM-PHC following an extension request on September 09, 2026.

Date	Activity
September 21, 2026	The NWB informed the parties that the Public Hearing will take place on November 09-10, 2026 due to logistical challenges. However, on September 28, 2026, the NWB updated that the Public Hearing will proceed as planned originally on November 05-06 due to CIRNA's unavailability for the week of November 09, 2026.
October 05, 2026	DFO submitted their final written submission and CIRNA requested an extension to file their submission.
October 07, 2026	CIRNA and GN submitted their final written submission.
October 22, 2026	The City provided a response to the final written submissions from the Interveners and updated the draft water licence framework.
October 28, 2026	The NWB distributed the Final Agendas for the Public Hearing and Community Session.
November 05-06, 2026	The NWB holds the Public Hearing and the Community Session

Next steps in the Application Process

- The Public Hearing (PH) this week is chaired by the Board Panel and led by the Board's Chair.

- The NWB Panel is here to consider the evidence provided during the hearing, before issuing a decision in about 30-45 days.

- The NWB will inform the public of the Board's decision, once rendered.
