Hi Mohammed

Since I never heard back from you last week I will respond to this original email from January 4, 2019, clarifying what was submitted under which conditions.

Condition B1:

The NWB previously acknowledged receipt of the annual reports and provided a letter of review to Matthew Hamp on December 12, 2018 (attached).

Condition D2:

The NWB looks forward to receiving the O&M Manual for the water treatment facilities, expected March 2019.

Condition E6:

The NWB acknowledges receipt of the "City of Iqaluit Sewage Lagoon Permanent Record File," which contains a brief O&M manual for the sewage lagoon.

This requires Board approval and will be sent for Public review.

Condition E7:

The NWB looks forward to receiving the O&M Manual for the Upgraded Wastewater Treatment Plant, expected October 2019.

Condition E12:

The NWB acknowledges receipt of the "City of Iqaluit Landfill O&M Manual," subsequently received on January 9, 2019, following request by the NWB.

This requires Board approval and will be sent for Public review.

Condition I2:

The Updated Monitoring Program was in part, included in the QA/QC plan.

The monitoring program requires Board approval and thus this document will be sent for Public review.

Condition I5:

The NWB acknowledges receipt of the City of Iqaluit, Quality Assurance / Quality Control Plan.

Note: this plan did not contain the appendices, and thus did not contain a letter from an accredited lab, which is required under the Licence.

Condition E14:

The NWB acknowledges receipt of the "West 40 Landfill Drainage Management Review."

Thank you again for this submission.

Please provide to the Board a letter from an Analyst of an accredited laboratory confirming acceptability of the QA/QC Plan, as per condition I5 of the Licence.

Regards,
Derek
