Mr. Ian Mosher, P. Eng.  
Town Engineer  
Town of Iqaluit  
Iqaluit, NT  
XOA OHO

Dear Mr. Mosher;

Re: Request for Information

1. Under separate cover I am preparing a review of the 1996 Annual Report and a 1996 Compliance Review on water licence N5L3-0087 held by the Town of Iqaluit.
2. However, there are a number of issues that, at least according to our records, have not been addressed. To that end, I am requesting that a point by point reply be made to clarify the progress that the Licensee has made with regards to certain clauses of the licence. Please provide copies of any documentation relating to time extensions having been requested or granted.
3. In the order that they appear in Water Licence N5L3-0087, the particular clauses that I require information on are as follows:

Part D, Item 10: A spill contingency plan was due by June 30, 1996. What is the status of this plan? Were any extensions to the due date requested and/or granted?

Part D, Item 13: A long term waste management plan was due by January 1, 1997. What is the status of this plan? Were any extensions to the due date requested and/or granted.

.../2

Part F, Item 3: An A+R plan for the West 40 site was due by January 1, 1997. It was not submitted until August of 1997 and work that had been initiated prior to receiving approval was ordered stopped. What is the status with respect to abandonment and restoration of this site?

Part F, Item 5: As above, but for the Apex site. The A+R plan was due by June 30, 1997.

4. If you have any questions, please do not hesitate to contact this office.

Sincerely,

Paul Smith  
Water Resources Officer  
Nunavut District
