

Mr. John Hussey  
Chief Administrative Officer  
City of Iqaluit  
Iqaluit , Nunavut

September 26, 2012

John,

**RE: Water License Compliance Inspection Monday October 1<sup>st</sup> 2012.**

Please be advised that I will be conducting a Water License Compliance Inspection starting at 09:00 at the Water Treatment Plant.

It is expected that the Inspection will take the better part of the day and will focus on the following;

- Source water security and integrity of the intake system/treatment system
- Dam safety - implementation of the recommendation of the listed in the last dam safety inspection
- Water usage logs and sampling results from the source water and Chemical storage and security in your facilities
- Operations and maintenance manuals at each facility
- A copy of the Final assessment of the Sludge management Plan and a record recommendations and implementation of the recommendations.
- A conceptual A&R plan as required by the now expired license
- A report on the treatment options that may be undertaken prior to the discharge of any contact waters from the west forty Land fill or recently constructed retention pond which remains unlicensed.
- Samples will be collected of the source water (Lake Geraldine), North-forty land fill, Retention Pond and Effluent Discharge Pipe.

Inspectors from Environment Canada will also be attending the inspection at my request to facilitate further confirmatory sampling.

As required under the Act it is expected that the City will take part in the Inspection and provide whatever resources and support as are required to complete the inspection. I look forward to working with you and your staff to facilitate this.

If you have any questions or concerns, please do not hesitate to contact our offices at your earliest convenience.
