Hello,

I realize that Derek is no longer with NWB. Please find our notification to begin pumping from the Apex River in Iqaluit below.

Please let me know if you have any questions.

Thanks,

Matt

**Subject:** 2021 Apex River Pumping Project - Notification of Pumping Start

Hi Derek,

Nunami Stantec has been hired to act as Contract Administrator and Owner's Engineer for the City of Iqaluit's 2021 Apex River Pumping Program. The contractor has been working on mobilizing equipment to the pumping site with an initial schedule to begin pumping this week, pending ice conditions at the site. While this is weather permitting (Apex River at this location is only now free of ice), we are notifying you of the progress and will confirm with you once pumping operations begin.

Please let me know if you require anything else prior to starting pumping operations for this year.

Thanks,

Matt
