Hello Maria,

As discussed on site on June 4, 2018, I acknowledge the email request submitted on June 4, 2018 to conduct an extension to continue the emergency discharge of the Wastewater Treatment Plant lagoon as per Part E: Subsection 15 of the water board license 3AM-IQA1626 . The information submitted is sufficient to proceed with an extension on June 4, 2018 for a period of 1 week and 1 day to be complete by June 12, 2018.

Please be aware that the City of Iqaluit and all contractors or employees involved with the emergency discharge of wastewater from the lagoon may be held responsible where acts or omissions that do not exercise due diligence occur. This includes but is not limited to uncontrolled spills or discharges of wastewater or other substances. This email does not exempt those persons or parties conducting the emergency discharge of the wastewater treatment plant lagoon from following or meeting other relevant legislation and it must be understood that one or more federal or territorial agencies may also have jurisdiction on this matter.

Regards,

JM

Hello Joseph,

I sent you an e-mail yesterday to request extended time on the City's decanting to the Bay from the Lagoon. I also do not have your contact phone numbers to call you.

Could you please reply to me as otherwise we need to stop decanting today and we may experiencing an overflow.
