Subject: City of Iqaluit Water Licence Application

Dear Mr. Baker,

The Nunavut Water Board ("NWB") acknowledges receipt of your August 8<sup>th</sup>, 2005 letter addressing outstanding issues for the City of Iqaluit Water Licence Application. In your letter, you confirmed that the City expects to submit a Sludge Management Plan in preliminary draft form in mid to late October 2005, and that it considers unnecessary to submit a Contingency Measures Plan for sewage disposal since the proposed Waste Water Treatment Plant is expected to be fully operational.

Once the Sludge Management Plan is submitted, the NWB will conduct a preliminary review and will provide further directions as to possible dates for a public hearing. This hearing will deal with all matters relating to water use and waste disposal, including the issue of contingency planning and the abandonment and restoration of waste disposal facilities such as the sewage lagoon and other waste sites.

If you have any questions, please do not hesitate to contact me.

Yours truly,
