Re:Decant of Sewage Lagoon

The City of Iqaluit would like to inform Indian and Northern Affairs Canada of its intention to decant the Sewage Lagoon next to the Waste Water Treatment Plant on July 27,2009.

This letter is in order to give notice to comply with the City of Iqaluit's Water License No.3AM-IQA0611 Part E Point 2.

This decant is part of normal operations and maintenance of the Waste Water Treatment Plant. The lagoon will require decanting in order to accommodate the sewage flow from the City of Iqaluit's sewage system during the shutdown of the Waste Water Treatment Plant for normal preventative maintenance. The City of Iqaluit will take samples and forward the results to the Inspector once the results have been received.

The City of Iqaluit appreciates the continuing dialogue with Indian and Northern Affairs Canada and we look forward to your response.

Sincerely

Steven Iyago Operations Superintendant Public Works City of Iqaluit
