Good morning Richard:

I am contacting you on behalf of the City of Iqaluit, in reference to the City's 3AM-IQA1626 Type A Water Licence QA/QC Plan.

I am in the midst of addressing the comments provided by CIRNAC (see attached document); however, I wanted to obtain some clarification regarding Item #1 Letter from Accredited Laboratory. Can you please confirm why a letter from an analyst from the accredited laboratory is required to confirm acceptability of the QA/QC Plan? The plan was prepared by licenced professionals, and references the necessary testing and accreditation requirements of the said laboratory.

Unless the laboratory was specifically retained by the City to facilitate in the development of a QA/QC Plan, I cannot see why they would be willing to sign-off on a Plan which they had no part in developing and taking responsibility for. Our understanding of the Plan is that it is to provide indication that testing of materials specified in the Plan will be carried out by an accredited laboratory – this was provided.

Can you please provide further clarification to the Boards requirements for this item?

Kind regards,

Josip Deronja, P.Eng

Project Manager
