Good Morning Nidhi,

CIRNAC is doing a Pilot Project on the Community planning started in 2024 for three yrs. GN lands and planning, NAM, NTI etc. are the part of this massive program. The stand alone drainage plan and seepage monitoring and management plan fall in this program. We are not duplicating by this drainage plan at this moment and rather wait.

We will be updating the rest of three documents and submitting on or before December 31, 2024.

Probably we will be submitting as we can finish one by one.

Please let me know if this works for you.

Thanks

Bhabesh
