Disclaimer:

1. EXP takes no responsibility for your use of these digital files.
2. The hard copy of the project output retained by EXP will constitute the original documents for record purposes and will be used in the event of a dispute over inconsistencies in electronically produced documents.
3. Where file format conversion is required, the original file format used to output the final product will be used in the event of a dispute over inconsistencies.
4. The information in the digital files is specific to the project and cannot be used on any other project without written permission from EXP. Any use which a third party makes of this digital data, or any reliance on or decisions to be made based on it, are the responsibility of such third parties.
5. The digital data remains the property of EXP.
