Thanks Rita.

I'm copying the SAO of Pangnirtung as well as your Community and Government Services colleague, Elan Chalmers, to make them aware of what this activity, the temporal access to extract between 100 -140 cubic metres of natural sand and gravel deposit for this year's winter road maintenance only, what water licence submission requirements will be.

The Hamlet of Pangnirtung is required to submit an annual report as per terms and conditions of water licence 3AM-PAN1828, attached for their reference is the last annual report submitted along with the Nunavut Water Board's review of the 2018 annual report. The Hamlet of Pangnirtung annual reports for 2019, 2020 and 2021 remain outstanding.

If the temporary quarry activities are completed this winter, a summary of quarrying activities will be sufficient and should be submitted with the 2022 annual report.

Regards,

Richard
