Dionne Filiatrault
Technical Advisor
Nunavut Water Board
Gjoa Haven, NT
X0E 1J0

Dear Ms. Filiatrault:

Thank you for your letters of May 21 and May 29, 1998, addressed to Ms. Tanya Smith, concerning the Pangnirtung Sewage Treatment Planning Study.

Further to these two letters and a letter from the Department of Fisheries and Oceans (DFO), dated May 29, 1998, addressed to Mr. Dave Parker, the Department of Municipal and Community Affairs (MACA) is proceeding with further geotechnical, structural and options analysis of the proposed roadway and sewage lagoon (s).

We understand that there are numerous approvals required for this project to proceed. Our objective was to consult with the various stakeholders on the concept to see if approval would be granted. However, the various regulatory authorities appear to be unwilling to indicate tentative approval prior to a final design being presented.

Upon completion of further analysis, we will present the results to you and the various other stakeholders.

Should you have any questions or concerns, please do not hesitate to contact me at 867-979-5020.

Sincerely,

Douglas R. Sitland, P.Eng.
Municipal Planning Engineer
Municipal and Community Affairs
