Resolute Bay Water licence Application- Ownership Response

As discussed with you Joe and Bhabesh Roy, I would like to outline a few points for the Hamlet;

- the Hamlet does not own any infrastructure in relation to water and sewer.
- we pay the utilities and maintenance costs for this service only. The GN, Department of CGS owns and operates the system.
- we do however manage and run the Landfill and metal collection area.

Resolute is a little different from other Hamlets in that a majority of the water and sewer is delivered by water and sewer utilidors.

Can you also withdraw the previous application for a water licence, we are currently working with Bhabesh to make a new application, covering only the landfill site for the Hamlet.

Should you have any questions or concerns please contact myself at the above address.

Sincerely,
Josh Hunter,
Senior Administrative Officer

cc. Bhabesh, Roy. CGS- GN
