

1. GENERAL

- .1 The Contractor shall read and be governed by the General Conditions, General Instructions, Instructions to Bidders, Addenda, Form of Tender and Agreement of the complete specifications for this project.
- .2 The complete work under this trade shall be governed by the dictates of good practice in all details of materials and methods, even if not minutely specified. The work shall be properly coordinated with the requirements of other units of work specified in other sections.

2. ACCESS

- .1 Provide and maintain adequate access to and around project site.
- .2 Maintain existing roads for duration of contract, and make good damage resulting from Contractor's use of roads.

3. CONTRACTOR'S SITE OFFICE

- .1 A site office is not required.

4. STORAGE SHEDS

- .1 Provide adequate weather-tight sheds with raised floors for storage of materials, tools, and equipment, which are subject to damage by weather.

5. SANITARY FACILITIES

- .1 Provide sanitary facilities for work force in accordance with governing regulations and ordinances.
- .2 Post notices, and take such precautions as required by local health authorities. Keep area and premises in sanitary condition.

6. POWER

- .1 Arrange with Owner and maintain temporary electrical power supply in accordance with governing regulations and ordinances.

7. WATER SUPPLY

- .1 Arrange with Owner for temporary water supply in accordance with government regulations and ordinances.

8. HEATING AND VENTILATING

- .1 The Contractor is responsible for costs of temporary heat and ventilation used during construction, including costs of installation, fuel, operation, maintenance, and removal of equipment. Use of direct-fired heaters discharging waste products into work areas will not be permitted unless Owner gives prior approval.
- .2 Provide temporary heat and ventilation in enclosed areas as required to:
 - .1 Facilitate progress of work.
 - .2 Protect work and products against dampness and cold.
 - .3 Prevent moisture condensation on surfaces.
 - .4 Provide ambient temperatures and humidity levels for storage, installation, and curing of materials.
 - .5 Provide adequate ventilation to meet health regulations for safe working environment.
- .3 Ventilating
 - .1 Prevent hazardous accumulations of dust, fumes, mists, vapours, or gases in areas occupied during construction.
 - .2 Ventilate storage spaces containing hazardous or volatile materials.
- .4 Maintain strict supervision of operation of temporary heating and ventilating equipment.

9. REMOVAL OF TEMPORARY FACILITIES

- .1 Remove temporary facilities from site when directed by Engineer.
