Re: Location of Utilidor Outfall for a New Type 'B' Water Licence, 3BM-RUT----

Dear Mr. Keim:

During our telephone conversation and a follow-up email on December 1, 2009, the Nunavut Water Board (NWB) was advised that the sewage outfall for the Resolute Bay Utilidor, owned by the Government of Nunavut, Department of Community and Government Services (Applicant), may be sufficiently set back from the high water mark such that it always discharges overland to the ocean. As this information may affect whether the NWB regulates waste disposal for the Utilidor and it not consistent with information provided by the Applicant on November 4, 2009, the NWB requests prior to 5:00 pm Mountain Time on December 16, 2009 for the Inspector to verify on letterhead or in an Inspection Report where the outfall is positioned relative to the water level of Resolute Bay.

Following receipt of your letter or Inspection Report, the NWB will request a response from the Applicant.

If you have any questions or require clarification on the above, please contact the undersigned at (867) 360-6338 ext. 30 or by email to dcarr@nunavutwaterboard.org.

Sincerely,

Original Signed By:

Don Carr
Technical Advisor
Nunavut Water Board
