Hi Phyllis,

The Construction for water distribution system is expected to be completed in 2017 and O&M is expected at the end of 2017 or early 2018.

The O&M manuals for up gradation of Char lake Pump Station and Signal Hill WTP are expected to be available by December 31,2014.

The schedule for Wastewater Treatment plant is still unknown.

As per our discussion over phone few minutes ago, I hope this will help for public review process of this file.

Thanks.

Bhabesh

Subject: Licence 2BM-RUT Renewal Application

Hi Bhabesh,

As a follow-up to our telephone conversation today, the NWB requires copies/responses pertaining to the following items:

1. Laboratory results for 2010, 2011, and 2012 reporting periods; no laboratory results were provided for the 2010 and 2011 reporting periods while the embedded laboratory results provided for 2012 reporting period cannot be viewed/opened;
2. Confirmation with respect to actual scope of the water licence renewal application; and
3. Provision of an updated Operations & Maintenance Manual (O & M) manual for the water and waste water system.

Please note that I will be discussing with Dave the suggestion(s) you raised surrounding requirement for an O & M manual.

If you have any questions in the interim, please contact me.

Regards,

Sean
