Sent on behalf of Sara Eddy:

Dear Richard Dwyer,

The Department of Fisheries and Oceans Canada (DFO) has reviewed the submitted Char Lake Pump House Drawings (1 file) and the Char Lake Pump House Specs (6 parts). Based on the information provided, the project has been sent to the Fisheries Protection Program Regulatory Review Unit in Burlington for project specific review. For your reference, the DFO file number is 17-HCAA-01797.

A Fisheries Protection Biologist from the Regulatory Review Unit will be contacting the proponent shortly. For their information, the Supervisor for Regulatory Review is:

Andrea Doherty
Andrea.Doherty@dfo-mpo.gc.ca

(905) 336-6274

Please note that should DFO determine that the proposed project requires *Fisheries Act* Authorization, regulated timelines will apply. Following submission of an Application for Authorization, DFO will respond within 60 days regarding whether the application is complete or incomplete. When a complete Application for Authorization has been received, DFO will issue the *Fisheries Act* Authorization or inform the proponent of its refusal to do so, within 90 days of the date upon which the application was deemed complete. These regulated timelines may be stopped with notification from DFO. Further information is available at: <http://www.dfo-mpo.gc.ca/pnw-ppe/reviews-revues/authorization-autorisation-eng.html>.

Yours sincerely,

Sara Eddy

A/Team Leader, Triage and Planning

Fisheries and Oceans Canada

Fisheries and Oceans Canada has changed the way new project proposals (referrals), reports of potential *Fisheries Act* violations (occurrences) and information requests are managed in Central and Arctic Region (Alberta, Saskatchewan, Manitoba, Ontario, Nunavut and the Northwest Territories). Please be advised that general information regarding the management of impacts to fish and fish habitat and self-assessment tools that enable you to determine *Fisheries Act* requirements are available at DFO's "Working Near Water" website at www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html. For all occurrence reports, or project proposals where you have determined, following self-assessment, that you cannot avoid impacts to fish and fish habitat, please submit to fisheriesprotection@dfo-mpo.gc.ca. For general inquiries you can also call 1 855 852-8320.
