Good afternoon Bhabesh,

I am writing to request an update on the status for 3BM-IGL0308 renewal (Hamlet of Igloolik) and 3BM-RUT---- (Resolute Water and Waste Systems).

The last correspondence on Igloolik was an email on September 10, 2008 from Phyllis to you with requirements for the application. As the Licence expired end of August, I am hoping we could receive the information to keep the process moving such we can sent the file out for a 30 day review.

How did the meetings with the Hamlet of Resolute go in determining ownership of the lagoon and other facilities? Do you have any answers to my email of September 22, 2008? I sent it to Patricio Fuentes as you were on leave however I never heard back other than there was a meeting scheduled with the Hamlet.

Thanks Bhabesh,

Best Regards,

Don Carr
