By email <u>info@nirb.ca</u>

Dear Mr. Cote and Ms Lear,

Re: NRI License No 10YN0015 Arctic Soil pollutants Alexandra Fiord Siciliano Feb 13 CD

The NPC has completed its review of the above noted project proposal. It conforms to North Baffin Regional Land Use Plan (NBRLUP) subject to the enclosed questionnaire.

By this letter and enclosure, the NPC is forwarding its determination to NIRB for screening.

The applicant has undertaken to comply with the enclosed requirements. The authorizing agency to which this letter is addressed is responsible under the *Nunavut Land Claims Agreement* to implement the enclosed requirements by incorporating them directly, or otherwise ensuring that they must be met, in the terms and conditions of any

authorization issued. My office would be pleased to discuss how best to implement these requirements and to review any draft authorization that any agency wishes to provide for that purpose.

This conformity determination applies only to the applications as submitted. Therefore, the proponent must ensure other applications for a permit under this project proposal not listed above are forwarded to NPC for a conformity determination against the NBRLUP, and please notify the NPC immediately if any material change to the project proposal is made before authorizations are issued.

Yours Truly,

Christopher Tickner MCIP, RPP

Senior Planner
