RE: Water Licence Application for Polar Continental Shelf Project 507-08 Axel Heiberg Island, Nunavut

Dear Madam/Sir:

Please find attached the application form for a Water Licence filled out to the best of our knowledge.

Project 507-08 consists of geological and geophysical field work at 3 locations on Axel Heiberg Island from July 21 to August 22, 2008. The field teams are small (3 or 4 participants at any given time) and the impacts on the environment negligible, as we use local water from streams for drinking and washing, and carry out all our waste back to the McGill Research Station or Resolute at the end of our fly camps. The Supplementary questionnaire is not applicable.

Supporting documents include:

- A summary in Inuktitut and English
- An Application fee and Water use fee totaling \$60.00 (cheque included).

We realize this application is late in arriving to you and apologize for the delay.

Best regards

Marie-Claude Williamson
Principal Investigator
