

Appendix C

Monitoring Program Stations No. ALT-4-5-6-7

Year: 2011

Description: Runoff and Leachate.

Results:

June (Runoff Season)

The Department of National Defence was successful in collecting and analyzing samples at all Monitoring Program Stations (ALT-4-5-6-7) during the period of runoff in June 2011. Analytical Results are attached in this Appendix.

July

Site visits in July showed dry conditions that prevented any water samples to be collected for analysis at all Monitoring Program Stations. No analytical results could be conducted.

August

Only 2 Monitoring Program Stations (ALT-4 and -5) could be sampled in August. ALT-6 and -7 showed dry conditions that prevented any water samples to be collected for analysis. Analytical Results for ALT-4 and-5 are attached.

September

CFS Alert had returned to winter conditions by September of 2011, water sampling can no longer be conducted.
