

## **Appendix C**

### **Monitoring Program Stations No. ALT-4-5-6-7**

**Year:** 2012

**Description:** Runoff and Leachate.

#### **Results:**

##### **June (Runoff Season)**

The Department of National Defence was successful in collecting and analyzing samples at all Monitoring Program Stations (ALT-4-5-6-7) during the period of runoff in June 2012. Analytical Results are attached in Appendix E.

##### **July**

Only 1 Monitoring Program Station (ALT-4) could be sampled in July (picture attached). ALT-5, -6 and -7 (picture attached) showed dry conditions that prevented any water samples to be collected for analysis. Analytical Results for ALT-4 are attached in Appendix F.

Photograph of site conditions of ALT-4 in July 2012 showing surface flow; water samples were obtained.

Photograph of site conditions of ALT-7 in July 2012 to show dry conditions.

## August

Site visits in August showed dry conditions that prevented any water samples to be collected for analysis at all Monitoring Program Stations (ALT-4-5-6-7; pictures attached). No analytical results could be conducted.

Photograph of site conditions of ALT-4 in August 2012 to show dry conditions.

Photograph of site conditions of ALT-6 in August 2012 to show dry conditions.

Photograph of site conditions of ALT-5 in August 2012 to show dry conditions.

Photograph of site conditions of ALT-7 in August 2012 to show dry conditions.

## September

CFS Alert had returned to winter conditions by September of 2012, water sampling can no longer be conducted.
