

## **Appendix L**

### **List of Waste Disposal Activities**

**Year:** 2013

**Reference:** 3BC-ALT1015, Part B, 1a.

#### **Main Station Landfill:**

-Deposition of non-hazardous incinerator ash and all acceptable materials to site.

#### **Millionaire's Dump:**

-Deposition of non-hazardous metallic and bulky waste materials.

#### **Battery Dump:**

-No wastes were deposited at this site; no waste deposition is allowed at this site.

#### **Dump #3:**

-No wastes were deposited at this site; no waste deposition is allowed at this site.

#### **Landfarms:**

-New landfarm was constructed at ALT-10 (ALT-10 Landfarm). A water licence amendment application to the NWB has been submitted concurrent to this Annual Report. A description and record drawings of the facility can be found in the O&M Plan Section 6 and Figure 5.

##### *ALT-10 Landfarm*

-500 m<sup>3</sup> of historical petroleum hydrocarbon impacted soils were excavated from the adjacent Day Tank Fuel Farm (Lat: N 82°29'58.0"; Long: W 62°21'16.0") were placed in to the ALT-10 Landfarm for bioremediation treatment. The concentrations of contamination are attached in the Analytical Results contained in Appendix M. Five soil samples were collected using the identification tags of NBP-1-13 to NBP-5-13.

##### *ALT-11 Landfarm*

-No wastes were deposited at the ALT-11 site; existing material was rotated to facilitate aeration.

### **Hazardous Waste Backhauled from CFS Alert in 2013:**

As listed in Movement Document 2464626-7:

- 232 lbs of waste sulphuric acid to 8 Wing Trenton;
- 196 lbs of waste batteries (wet, non spillable) to 8 Wing Trenton;
- 7,399 lbs of was diesel fuel to 8 Wing Trenton.

As listed in Movement Document 2464627-5:

- 1,537 lbs of waste hazardous liquid, Ansulite 3%, Aqueous Fire-fighting Foam to 8 Wing Trenton;

- 4,551 lbs of waste aviation fuel to 8 Wing Trenton.

As listed in Movement Document 2464635-8:

- 1,437 lbs of waste material with white asbestos to 8 Wing Trenton;
- 151 lbs of light bulbs (containing Mercury) to 8 Wing Trenton;
- 546 lbs of waste antifreeze to 8 Wing Trenton;
- 220 lbs of waste diesel fuel to 8 Wing Trenton.

As listed in Movement Document 2464636-6:

- 430 lbs of waste oil to 8 Wing Trenton;
- 880 lbs of glycol to 8 Wing Trenton.

CFS Alert Hazardous Waste Generator #NUG100048;  
DND Hazardous Waste Carrier #NUC200012.

All hazardous wastes from CFS Alert were collected at 8 Wing Trenton and transferred to contractors for proper disposal under 8 Wing Trenton's Ontario Hazardous Waste Generator #ON0046507.
