RE: Approval of Revised Spill Response Plan - Arctic Operations Advisor Course, Licence No. 3BC – AWW0814, Part G - Item 1, Type “B”

Dear Mr. Roy:

The Nunavut Water Board (“NWB”) received on March 3, 2010, the revised Plan entitled “Spill Response Plan - Arctic Operations Advice Course” dated January 1, 2010. On March 8, 2010, the NWB acknowledged receipt and distribute the Plan to interested parties and person for a thirty-day review period. Comments were received from Indian and Northern Affairs Canada (INAC) and Environment Canada (EC).

Based on a review of the Plan and submissions it, was determined that the document is acceptable and consistent with the requirements of Part G, Item 1 of the terms and conditions under Licence No. 3BC-AWW0814. The NWB has, therefore, approved the plan under motion number 2010-15-L13. However, to address minor deficiencies and issues raised by the stakeholders, the annual review of the Plan should include the following:

- a. a copy of the NU-NT Spill Report Form; and
- b. the contact numbers for Environment Canada and INAC’s Manager of Field Operation. All spills should be reported to the aforementioned organizations or persons.

Should you have any questions, please feel free to contact the undersigned at 867-360-6338 ext. 25 or by email at sjoseph@nunavutwaterboard.org.

Yours truly,
