Flag Status: Completed

Good afternoon Richard (cc Don), we have been in contact lately regarding a Water License for my group's scientific project on Baffin Island next winter. I have filled out the NRI research license, and NIRB screening should be followed from there.

Hence, I attach to this email:

- the license application form
- the questionnaire for 'Exploration and remote camp'
- project description in both English and Inuktitut
- the spill contingency plan
- a .jpeg of our camp setup

As suggested by Don, I tried to reach ('without success') the Indian Affairs for the question #11 in the 'Exploration and remote camp questionnaire'. It is not clear if our suggested camp location is located on either Crown Lands or Commissioners Lands. I know that it is NOT located on Inuit Owned Lands. Perhaps someone from your group might know the answer. I tried to contact QIA, NPC, and Indian Affairs on this matter, all without success.

Please let me know if all this is ok for now, and do not hesitate to contact me if you have any questions or concerns re our application.

Regards,

Alexandre Langlois, Ph.D.
